GREASES

Multi-Purpose Lithium Grease

Specially formulated using only the premium base oils, lithium, 12 hydroxy stearic acid & additive systems to provide outstanding lubrication & protection. Suitable for use in a wide variety of applications that do not require anti-wear or extreme pressure agents.

Wheel Bearing Grease

Designed & formulated for bearings operating under conditions of extreme pressure and high temperature. Can also be used for general purpose lubrication, and as a replacement for several conventional greases resulting in smaller inventory and less chance of misapplication.

Super Lithium EP Moly Grease

Suitable for use in a wide variety of applications, MAG 1 Super Lithium EP Moly Grease has been fortified with molybdenum disulfide and graphite to provide protection against seizure under high loads and severe shock load conditions.

Marine Grease

Specially formulated with premium, state-of-the-art lithium complex grease. This is a tacky grease which resists water washout even under severe operating conditions - including saltwater.
